

KELARIX · CMS SETUP GUIDE

About Us Page — WordPress Setup

Every ACF field required to make the About Us page fully editable from the WordPress dashboard. Mirrors the same pattern as the homepage guide.

CPTS REUSED

1**kx_process** (6 steps)

1 Page Setup

Publish a WordPress Page that uses the **About Us** template.

1 Create the page.

Dashboard → *Pages* → *Add New*. Title it **About Us**. Slug: `about` .

2 Assign the template.

In the right sidebar → *Page Attributes* → *Template* → choose **About Us**.

3 Publish.

Click Publish. Preview at `/about` .

4 Add to menu (optional).

Appearance → *Menus* → *Primary Menu*, add the About page.

The theme file backing this is `page-about.php` . It automatically pulls in the 6 sections under `template-parts/about/` . Every field below shows design defaults until you fill it in — the page is never blank.

2 ACF Field Group — “About Page Content”

Create one field group in **ACF** → **Field Groups** → **Add New**.

Title: About Page Content · **Location:** Page *is equal to* About Us (or the About page you created above).
Add a **Tab** field at the start of each section to keep the editor organised.

Tab · Hero

LABEL	NAME	TYPE	NOTES
Hero Tab	about_hero_tab	Tab	—
Hero Heading	about_hero_heading	Textarea	Allows basic HTML. Default: "Built to bring clarity, control, and intelligence to business operations."
Hero Subtext	about_hero_subtext	Textarea	Default: "Kelarix builds data driven systems..."
Hero Image	about_hero_image	Image	Return Format: Image URL. Background photo behind hero.
Primary CTA	about_hero_cta_primary	Link	Default: "Request a Diagnostic Conversation" → #contact
Secondary CTA	about_hero_cta_secondary	Link	Default: "Explore What We Build" → #systems
Shield Note	about_hero_note	Text	Default: "For businesses managing complex operations and scattered data."

Tab · Why Kelarix Exists

LABEL	NAME	TYPE	NOTES
Why Tab	why_tab	Tab	—
Badge Text	why_badge	Text	Default: "Why Kelarix Exists"
Section Heading	why_heading	Textarea	Allows <code>
</code> . Default: "Businesses are growing faster than their systems can support."
Paragraph 1	why_text_1	Textarea	Opening paragraph.
Paragraph 2	why_text_2	Textarea	Middle paragraph.
Paragraph 3	why_text_3	Textarea	Closing paragraph.
Quote Card	why_quote	Textarea	Dark quote card text. Default: "The goal is not more technology. The goal is better business control."

Tab · Our Point of View

LABEL	NAME	TYPE	NOTES
POV Tab	pov_tab	Tab	—
Badge Text	pov_badge	Text	Default: "Our Point of View"
Section Heading	pov_heading	Textarea	Default: "Technology only creates value when it improves how the business runs."
Section Text	pov_text	Textarea	Intro paragraph below heading.
POV Card 1–5	pov_card_1 ... pov_card_5	Group	Sub-fields: <code>title</code> (Text), <code>text</code> (Textarea), <code>icon</code> (Text)

Icon values: `scatter`, `clipboard`, `clock`, `workflow`, `ai` (match filenames in `assets/images/icons/`).

#	DEFAULT TITLE	ICON
1	Business problems come before technology	clipboard
2	Data must be reliable before intelligence can work	scatter
3	Workflows must reflect real operations	workflow
4	Dashboards should support decisions	clock
5	Automation should improve control	ai

Tab · Strategy & Execution

LABEL	NAME	TYPE	NOTES
Strategy Tab	strat_tab	Tab	—
Badge Text	strat_badge	Text	Default: "Strategy & Execution"
Section Heading	strat_heading	Textarea	Default: "We sit between business strategy and technical execution."
Section Text	strat_text	Textarea	Paragraph beside the heading.
Strategy Card 1–3	strat_card_1 ... strat_card_3	Group	Sub-fields: title (Text), text (Textarea)
Strategy CTA	strat_cta	Link	4th card = CTA button. Default: "Request a Diagnostic Conversation" → #contact

#	DEFAULT TITLE
1	We understand the business first
2	Built around real operating needs
3	We build with practical implementation in mind

Tab · Structured Path

LABEL	NAME	TYPE	NOTES
Path Tab	<code>path_tab</code>	Tab	—
Badge Text	<code>path_badge</code>	Text	Default: "How We Work"
Section Heading	<code>path_heading</code>	Textarea	Default: "A structured path from business problem to working system."
Section Text	<code>path_text</code>	Textarea	Paragraph beside the accordion.
Primary CTA	<code>path_cta_primary</code>	Link	Default: "Request a Diagnostic Conversation" → <code>#contact</code>
Secondary CTA	<code>path_cta_secondary</code>	Link	Default: "Explore What We Build" → <code>#systems</code>

The 6-step accordion on the right pulls from the **Process Steps** CPT (`kx_process`) — the same posts used on the homepage. See §3.

Tab · Our Discipline

LABEL	NAME	TYPE	NOTES
Discipline Tab	<code>about_disc_tab</code>	Tab	—
Badge Text	<code>about_disc_badge</code>	Text	Default: "Our Discipline"
Section Heading	<code>about_disc_heading</code>	Textarea	Default: "Built with the discipline serious business systems require."
Section Text	<code>about_disc_text</code>	Textarea	Intro paragraph below heading.
Discipline Item 1–8	<code>about_disc_item_1</code> ... <code>about_disc_item_8</code>	Group	Sub-fields: <code>title</code> (Text), <code>text</code> (Textarea)
Primary CTA	<code>about_disc_cta_primary</code>	Link	Default: "Request a Diagnostic Conversation" → <code>#contact</code>
Secondary CTA	<code>about_disc_cta_secondary</code>	Link	Default: "Explore What We Build" → <code>#systems</code>

#	DEFAULT TITLE
1	Business first discovery
2	Confidentiality first
3	Data discipline
4	Workflow realism
5	Role based thinking
6	Responsible AI
7	Documentation discipline
8	Scalable foundations

3 Reusable CPT — Process Steps

The About page's "structured path" accordion reuses the same `kx_process` posts as the homepage. No duplicate content required.

If you already created the 6 Process Step posts for the homepage, the About accordion will populate automatically.

If not, follow the same setup as the homepage guide (§3, "Process Steps").

ORDER	TITLE	DESCRIPTION
1	Diagnose	Understand the business problem, visibility gaps, workflow pain, and decision needs.
2	Map	Map processes, data sources, roles, systems, bottlenecks, and reporting gaps.
3	Design	Define the right system, workflows, dashboards, user journeys, architecture, and success criteria.
4	Build	Develop the data layer, dashboards, automation, AI assisted features, and custom software.
5	Integrate	Connect the system with existing tools, data sources, workflows, and teams.
6	Improve	Refine the system based on usage, feedback, performance, and changing business needs.

4 Quick Summary

SECTION	METHOD	FIELDS
Hero	ACF (About Page Content)	6 fields
Why Kelarix Exists	ACF (About Page Content)	6 fields
Our Point of View	ACF (About Page Content)	3 fields + 5 groups
Strategy & Execution	ACF (About Page Content)	3 fields + 3 groups + 1 link
Structured Path	ACF + reuses <code>kx_process</code> CPT	4 fields + 2 links
Our Discipline	ACF (About Page Content)	3 fields + 8 groups + 2 links

Total ACF field groups to create for the About page: 1

1. About Page Content (on the About Us page)

No new CPTs needed. The Structured Path section reuses the existing `kx_process` posts from the homepage.
